Subject: FIP updated website

To FIP Members

Please find a copy of the latest FIP Newsletter, Volume 7 http://www.fippolo.com/wp-content/uploads/2013/04/FIP-Newsletter_Vol-7.pdf which can also be accessed from our newly revamped website at www.fippolo.com . You will find some very nice features on the updated FIP website such as

- An Interactive Members Directory on the *Contact* page. The password to access it is **polo** and you will be able to use your computers and smart phones to link to websites, dial phone numbers, and automatically load e-mail addresses with the touch of a finger. Also, everything on the website is “print friendly.”
- Associations are also interactive from within the website so if you’re looking for a new handicap list, you can touch the country and their association website will appear with all their latest information or an e-mail of who to contact.
- Spouses have asked to have their own contacts, so by going to the “spouse” category in the directory, all the spouse e-mails will appear for any spouse asking to be on the list.
- An easy update form is also available on the contact page.

We hope you enjoy the latest newsletter and new interactive website and as always are open to comments and suggestions.

Best regards,
Dr. Richard T. Caleel
